3 Ways to increase retirement contributions

1. Give your account a raise
2. Pay off your debt
3. Cut spending

These days it feels like our money is pulled in many different directions. With all of the routine expenses, you may feel like you can't afford to make even a small increase to your retirement account contributions. Keep in mind, though, that even small increases can make a big difference. Consider these three tips on finding more money to contribute to your retirement account.

1. Give your account a raise

The next time you get a raise, consider celebrating your success by increasing your retirement contribution rate. You're not used to having that extra money, so chances are you won't miss it.

A small increase can go a long way

As you can see, if an investor who makes \$30,000 per year increases his contribution rate from 4 percent to 6 percent, that would mean over 20 years, his retirement account would increase by over \$21,000, but his contributions to his account would only increase by \$12,000!

Deferral percentage comparison

	4% deferral	6% deferral
10 years	\$14,617	\$21,925
20 years	\$42,943	\$64,414
30 years	\$93,670	\$140,505
40 years	\$184,515	\$276,772

Note: This example assumes a 25 percent tax rate and a consistent 6 percent rate of return.

2. Pay off your debt

Think of the money that is tied up each month in payments toward personal debt. The sooner you pay off this debt, the sooner that money will be free to put toward your retirement goals.

3. Cut spending

Track how much you spend for a month, and then look for ways to cut spending to use toward investing in your retirement account.

For instance:

- Could you cut back by bringing your lunch instead of going out to eat?
- How about borrowing books from the library rather than buying them?
- Do you have a larger cell phone plan or cable package than you really need?

To increase your contributions, contact your plan administrator.

Note: Group annuity contracts are issued by American United Life Insurance Company® (AUL), and registered variable annuity products are distributed by OneAmerica Securities, Inc., a Registered Investment Advisor, Member FINRA, SIPC, One American Square, Indianapolis, IN 46282, 1-877-285-3863.

Provided content is for overview and informational purposes only and is not intended and should not be relied upon as individualized tax, legal, fiduciary, or investment advice.

All numeric examples and any individuals shown are hypothetical and were used for explanatory purposes only. Actual results may vary. Actual returns or principal value will vary. Balances shown are before reduction for taxes.

Tax qualified retirement plans from AUL are funded by an AUL group annuity contract. While a participant in an annuity contract may benefit from additional investment and annuity related benefits under the annuity contract, any tax deferral is provided by the plan and not the annuity contract. **Variable products are sold by prospectus. Both the product prospectus and underlying fund prospectuses can be obtained from your investment professional or by writing to One American Square, Indianapolis, IN 46282, 1-800-249-6269. Before investing, carefully consider the fund's investment objectives, risks, charges, and expenses. The product prospectus and underlying fund prospectus contain this and other important information. Read the prospectuses carefully before investing.**

A variable annuity contract is a long-term, tax-deferred investment designed for retirement that will fluctuate in value. Investing involves risk, including the potential loss of principal.
